Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 4, 5, 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Prior Art (Figs. 1 and 2 of the drawings and the respective areas of the specification) in view of Fahraeus et al (6,563,951).

Prior Art teaches a pixel processing method (Figs. 1 and 2) comprising sequentially pre-processing or post-processing the pixel data ... and repeating pre-processing or post-processing on the pixel data ... (paragraphs 6 and 7). However, Prior Art fails to explicitly teach or suggest dividing pixel data within a frame into a plurality of segments in a vertical direction. This is what Fahraeus et al teaches (col. 6, lines 6-19). It would have been obvious to one of ordinary skill in the art at the time the present invention was made to combine the teachings of Fahraeus et al into the system and/or method of Prior Art in order to improve the quality of an image by processing in segments. Therefore, at least claims 4 and 7 would have been obvious.

As per claims 5 and 8, Fahraeus teaches each of the plurality of segments within the frame overlaps another of the plurality of segments by a predetermined number of pixels (col. 6, lines 20-44).

Allowable Subject Matter

3. Claims 1-3, 6 and 9 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach or suggest, in combination with the remaining elements and/or steps, a pixel processing apparatus comprising a controller ..., as recited in claim 1; and a method of processing pixels in a frame that is divided into a plurality of segments comprising separately storing ..., and checking ..., as recited in claims 6 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kee M Tung whose telephone number is 703-305-9660. The examiner can normally be reached on Tuesday - Friday from 5:30 am - 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Bella can be reached on 703-308-6829. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
